

# NAVIGATING KOREAN HOSPITALS HANDBOOK

**121st Combat Support Hospital (CSH)/  
Brian Allgood Army Community Hospital (BAACH)**

August 2017  
Version 3

## DRIVING DIRECTIONS TO KOREAN HOSPITALS

Before you read any further, we want you to know that 121<sup>st</sup> Combat Support Hospital provides the free Brian Allgood Army Community Hospital (BAACH) APP to facilitate driving directions to Korean network hospitals.

### 1. SCAN THIS QR CODE OR GO TO YOUR APP STORE AND TYPE "BAACH"

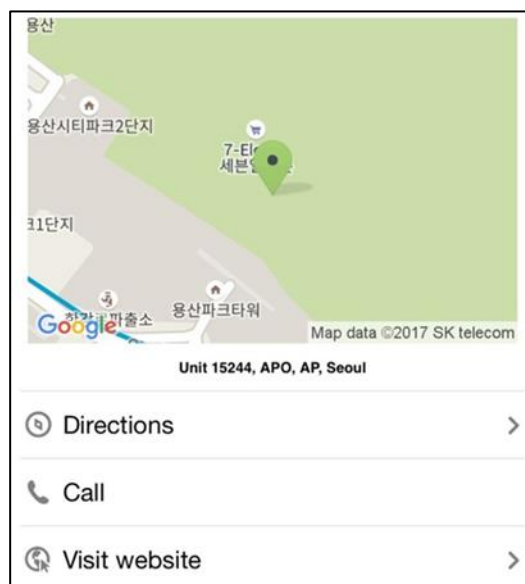

### 2. DOWNLOAD THE BAACH APP

### 3. CLICK ON THE HOSPITAL ICON

### 4. YOU ARE NOW READY TO GO!

## VISITING KOREAN NETWORK HOSPITALS

---

We understand that seeking and receiving healthcare in a foreign country at a civilian hospital can cause hesitancy and concerns because of language barriers, transportation challenges, and stress associated with navigating in an unfamiliar environment and healthcare system.

Korean network hospitals are part of our network, and together with their international clinics provide the highest quality healthcare, and all are accredited by the Joint Commission International or the Korean Hospital Association. You may be pleasantly surprised to know that many of the medical staff speak English and a significant number were trained in the United States.

We are confident that this handbook will assist you, help ease your concerns, and answer some of the questions you might have. We invite you to read this guide so you are better prepared to visit Korean network hospitals. Please refer to the table of contents page as needed. This handbook is also available on the 65<sup>th</sup> Medical Brigade website under the TRICARE tab.

## **KOREAN HOSPITALS AND INTERNATIONAL CLINICS**

---

Usually every Korean hospital has an international clinic with English speaking staff that will assist you. It is important to know up front that active duty personnel must wear civilian clothing while visiting Korean hospitals in accordance with Army Regulation 670-1. TRICARE Prime Beneficiaries must have a referral before going to a Korean network hospital, unless it is an emergency. When visiting one of our Korean network hospitals, you can expect a modern design and atmosphere, and the same up to date technology as you would expect in the United States. Most of the signs are in Hangul, the Korean language, with English translation to make it easier for their international visitors to navigate through their hospital. Many of the staff speak some English, and understand English as long as you speak slowly and clearly. They will make every effort to understand your needs and concerns while attending to your care. Your health and well-being is their priority, and they want your stay at their hospital to be as comfortable as possible. We ask that you be patient and cooperative with the hospital staff as they work to make sure you are taken care of in a timely manner and receive the best of care. Many of the hospitals have interpreters during normal business hours. If you need assistance, the international clinic will be glad to help and make sure that communication is clear, minimizing unneeded stress. Bringing a trusted friend or colleague with Korean language capability is an option. We are here to help and ensure that you receive the best of care in a patient-friendly environment. Please let us know if you are having difficulties or concerns so that we can help. TRICARE office DSN phone numbers are: Area I (315) 730-4695/ Area II (315) 737-1433/ Area III (315) 737-2780/ Area IV (315) 737-2779. To dial a DSN number from your cell phone, dial 05033 and the last six number of the DSN phone number. For example, to dial DSN 737-1433, dial 05033 37 1433.

We are here to serve our community of beneficiaries across the Peninsula with the very best patient-friendly access to healthcare.

## **EMERGENCY CARE AFTER HOURS**

---

If you seek emergency care at a Korean hospital after hours, the international clinics will be closed. The emergency room staff may not always know how to deal with TRICARE process. Some of the hospitals have a 24/7 English speaking service phone number; you will find these numbers in this handbook, on each hospital information page. Usually emergency rooms reach out to an English speaking person as well. In case of an emergency you can always call International SOS who manages your care overseas at 080-429-0880. If you are a TRICARE Prime beneficiary, Korean hospitals that are within the network will file claims for you. If you are a TRICARE Standard beneficiary, be prepared to pay 100% upfront then file a claim to be reimbursed. See page 50 for the claim process. Every beneficiary must ensure that you get a diagnosis from your doctor for claim purposes. If you pay for medication, you will need both the doctor's prescription and a pharmacy receipt for claim processing.

## **OUTPATIENT HEALTH CARE**

---

If you are receiving outpatient care and have an appointment scheduled, sometimes unexpected delays may occur (for example, a more emergent case), but usually you are seen promptly. Most Korean hospitals that are part of our network serve a very large community and work hard to ensure that each patient is seen and receives the best healthcare possible. They have each individual's best interest in mind and focus on fulfilling your expectations. It's a good idea to bring something to read or something to do to pass the time in case you experience a short delay. Also, the visit with your doctor is usually very brief. Doctors spend very little time with their patients. It is very in-and-out and onto the next patient. Most Korean hospitals in the network file claims for TRICARE prime beneficiaries. Check hospital information pages to find hospitals that file claims for TRICARE standard beneficiaries.

## **INPATIENT HEALTH CARE**

---

If you are admitted to a Korean hospital, you can expect to share either a room with another patient or in the more recently built hospitals, a private room may be available. TRICARE does not cover private rooms unless a semi-private room is unavailable at admission time. If you are in a private room and a semi-private room becomes available, you will have to move, since TRICARE will not authorize payment for the private room. The hospital staff will help move your belongings into your new room upon request. During your admission, a Nurse Consultant from your local Military Treatment Facility (MTF) can visit you as needed and you can also contact him or her if you have any questions or concerns. We highly recommend you to talk with the Nurse Consultant in your area to learn what you are expected to bring with you and what to expect at the hospital for admission. Contact your local TRICARE office at the MTF to find out who is the Nurse Consultant in your area. We want to ensure that there is continuity of care and a seamless delivery of healthcare between our Military Treatment Facilities and Korean hospitals that are part of our network. Please remember that U.S. Military and civilian providers' place of duty is at MTFs; therefore, you will not see U.S. medical staff during your stay at Korean hospitals.

## **CULTURAL AWARENESS**

---

We recognize that cultural differences do exist (language, food, and medication management, etc). While you remain an in-patient, the Korean families traditionally help hospital staff with the care of their patients. Because families take care of their ill patients, you may notice less nursing care than if you were in a U.S. hospital. The food will be different, even the western menu, if offered, will not be what you expect. Medical staff does not always wear gloves during every procedure like they do in the U.S. Child birth and delivery is very different. For example, most hospitals will not allow the father to be in the room during delivery, and none allow the father in the room during a C-section. If you are not accompanied by a family member, most hospitals recognize the need for additional assistance and may try to accommodate your needs. This will help alleviate stress and confusion, and gives you the opportunity to be better prepared for a more pleasant stay at one of our Korean network hospitals. You may experience a longer stay at a Korean network hospital than a western hospital as their approach to medicine and the healing process is different.

Although many hospitals have relaxed visiting hours, 2000 hours is considered the traditional time to conclude a visit so that patients can get needed rest. If you happen to share a room with another patient, it is best to refrain from playing loud music (use earphones) and if you need to make a call using your cell phone and are capable of walking, we recommend using the common area. Avoiding the use of strong aftershave, lotion, cologne, or perfume is also recommended as some patients may have allergies or sensitivities to strong smells. We thank you in advance for your cooperation in making each individual's hospital stay as comfortable as possible.

Korean medical practice is different than Western medicine. In Western medicine the patient is involved in the planning of their care, and is always questioning the care received to better understand their health state. However, in Korean medicine the patient relies on the health professional's medical opinion and care administered without questioning or the desire to know the process. All of the clinical decisions are made by the doctor, who then gives guidance and direction to the staff (nurses and administrators). It may seem at times that the staff may not be listening to you or ignoring your needs, but please know that this is not the case. They do understand your needs, but require the doctor to provide direction/approval before they can act upon your requests. Nurses, in particular, do not act as independent professionals, as American nurses do. If you are an

in-patient and you need something to help you sleep or you are having pain, do not hesitate to advise the nurse as early as possible so that they may get the required order from your doctor.

Unlike American doctors, Korean doctors are more paternalistic and tend to engage their patients less in the management of their cases. Often, the discussions with patients and family are limited with the Korean doctor and may seem to be directive or uncommunicative due to limited English-speaking ability or the reluctance to use their English. Again, be patient and try to develop a positive working relationship with your Korean doctor. Increasingly, many physicians in Korea have been trained abroad or understand the special needs of their American patients. Keep in mind that the goal is the same for all healthcare professionals and that is to deliver the best quality of care and return you to an optimal state of health.

### **Cultural Differences between America vs. Korean Hospitals/Patients**

<b>AMERICAN</b>	<b>KOREAN</b>
High medical fee	Relatively lower medical fee
Short admission period	Relatively longer admission period
Bigger hospital rooms	Relatively smaller hospital rooms
Lower patient to nurse ratio (max 1:6)	Higher patient to nurse ratio (normally 1:12)
Wide use of disposables	Less use of disposables
Long doctor consulting time	Relatively short consulting time
Regular use of gloves	Relatively less generalized use of gloves
Harder to reach the specialists	Easy access to specialists
Shopping around for hospitals is not normal	Shopping around for hospitals is normal
Relatively lower tolerance to pain	Relatively higher tolerance to pain
Sensitive to body contact	Not sensitive to body contact
Positive for eye contact	Eye contact may be impolite
Individualism more accepted (privacy)	Groupism, family-oriented
Intramuscular injection given on arms	Intramuscular injection given on buttocks
Full nursing care	Families involved in patient care

Brian Allgood Army Community Hospital staff continuously works with the Korean network hospitals to make sure they follow appropriate standards of care for infection control and pain management.

### **Patient Care Provided by Family Members**

1. Psychological support of the patient during the hospital stay
2. Helping patient with feeding/eating
3. Helping patient to use the toilet or toilet tray if patient is not ambulatory
4. Helping patient with prevention of falling accidents
5. Discussing patients' condition with doctors
6. Providing supplies for patient

## **PROOF OF TRICARE ELIGIBILITY**

---

Always ensure that you have a proof of TRICARE benefits eligibility. See directions below on how to download your eligibility letter. Always know what type of TRICARE program you have.

1. Go to milConnect to <https://www.dmdc.osd.mil/milconnect/>
2. Click on “Obtain proof of health coverage” link
3. Login with DS Logon, CAC or DFAS myPay Password.
4. Under proof of coverage, select family member
5. Click on the “Generate” button
6. Click “Open” on the “MyEligibilityLetter” PDF document
7. Print and carry with you to the Korean network hospital

If you have any issues downloading your eligibility letter come to the TRICARE Service Center for assistance.

## **LANGUAGE SERVICES**

---

Navigating in Korean network hospitals without understanding the language can be frustrating for anyone. Feel free to utilize the 24/7 language interpretation services listed below while you are visiting Korean network hospitals. The two options are:

1. Call International SOS at 080-429-0880, select option 1, and ask for an interpreter
2. Call Language Line Solutions at 1688-4949 after the operator talks, dial 1-866-874-3972, provide client ID 597001, and ask for an interpreter

## **COURTESY SHUTTLE SERVICES**

---

Transportation in Korea can be difficult for newcomers. It takes some time to understand public transportation such as the subway, train, and city bus system. If you have a medical appointment at a Korean network hospital, your MTF provides courtesy shuttle services to and from your appointment to several Korean network hospitals. Courtesy shuttles run during the daytime; therefore, it is recommended that you schedule your appointments accordingly. Call the TRICARE office in your area for information about courtesy shuttle schedules.

Area I	Mobile 010-8972-8491
Area II	DSN 737-1433 or 050-3337-1433
Area III	DSN 737-2780 or 050-3337-2780
Area IV	DSN 737-2779 or 050-3337-2779

## **MEDICAL RECORDS FROM NETWORK KOREAN HOSPITAL**

---

Your Korean doctor understands that your Military Treatment Facility (MTF) provider will need a report on your care. If you are a TRICARE Prime beneficiary, the Korean network hospital will send your medical record to the TRICARE Service Center. If you are a TRICARE Standard Beneficiary, you are responsible for requesting, carrying, and deliver your medical record to the closest TRICARE Service Center or MTF outpatient record office. If you must pay a medical record issuance service charge (20,000 ~ 30,000 Korean Won), pay it separately because it is not a TRICARE covered service. Never add this fee to a TRICARE claim

because it will cause denial (see page 51 for claim process). In the event of a Korean hospital giving you a CD containing X-Rays, CTs, MRIs, Ultrasounds, etc., it is your responsibility to deliver the CD to the Radiology at your closest MTF so it can be added to your electronic health record. For Prime beneficiaries, Korean network hospitals have 10 business days to return routine care medical reports and 24 hours for urgent care reports.

## **HAVING BABIES IN NETWORK KOREAN HOSPITALS**

To register your child in DEERS, you must:

1. Get a birth certificate from the Korean hospital
2. Register your baby in the Defense Manpower Data Center DEERS. You won't need a Social Security Number (SSN) to register your child in DEERS; however, you will need to update your child's DEERS information as soon as you obtain the SSN
3. Register your baby in the Patient Administration Division (PAD)
4. Enroll your baby in a TRICARE program
5. Apply for your child's SSN. For more information on applying for an SSN, go to the Social Security Administration website at [www.ssa.gov](http://www.ssa.gov) or call **1-800-772-1213**

## **TRICARE SERVICE CENTER SERVICES AND PHONE NUMBERS**

Contact your local TRICARE Office for assistance with enrollments, referrals, claims and more.

Area I	TRICARE Office	DSN 737-1433 or 050-3337-1433
Area II	TRICARE Office	DSN 737-1433 or 050-3337-1433
Area III	TRICARE Office	DSN 737-2780 or 050-3337-2780
Area IV	TRICARE Office	DSN 737-2779 or 050-3337-2779

## **TRICARE OVERSEAS PROGRAM INTERNATIONAL SOS RESOURCES**

International SOS is proud to support the U.S. Military and their Families overseas, ensuring quality healthcare no matter where their work or travels take them. For online services visit [www.tricare-overseas.com](http://www.tricare-overseas.com)

## KOREAN NETWORK HOSPITALS OVERVIEW

This is an overview of all Korean hospitals. The distance provided gives you an idea how far each hospital is from your installation. Please see the following pages for detailed information regarding each approved hospital.

Uijeongbu St. Mary's	1.4	miles from Casey Clinic
Dongducheon Joongang St. Mary's	3.1	miles from Casey Clinic

Adaptable Human Solutions	2.3	miles from 121 <sup>st</sup> Hospital
Asan Medical Center	9.9	miles from 121 <sup>st</sup> Hospital
CHA Gangnam Medical Center	5.5	miles from 121 <sup>st</sup> Hospital
Dr. Woo & Hann's Skin and Laser	2	miles from 121 <sup>st</sup> Hospital
Ewha Women University Mokdong	7.3	miles from 121 <sup>st</sup> Hospital
Inha University Hospital	2.5	miles from 121 <sup>st</sup> Hospital
Samsung Medical Center	12	miles from 121 <sup>st</sup> Hospital
Seoul National University	5.4	miles from 121 <sup>st</sup> Hospital
Seoul St. Mary's Hospital	4.2	miles from 121 <sup>st</sup> Hospital
Severance Hospital	5.4	miles from 121 <sup>st</sup> Hospital
The Mind Care	5.3	miles from 121 <sup>st</sup> Hospital
Yeouido St. Mary's Hospital	3.1	miles from 121 <sup>st</sup> Hospital
You & Me Psychological	4.7	miles from 121 <sup>st</sup> Hospital

Ajou University Medical Center	29	miles from Humphreys Clinic
CHA Bundang Medical Center	44	miles from Humphreys Clinic
Dankook University Hospital	20	miles from Humphreys Clinic
Good Morning Hospital	8.1	miles from Humphreys Clinic
Hallym University Dongtan	28	miles from Humphreys Clinic
Pyeongtaek St. Mary's Hospital	8.7	miles from Humphreys Clinic
Seoul National University Bundang	36	miles from Humphreys Clinic
St. Vincent Hospital	28.5	miles from Humphreys Clinic
Yonsei Dawoon Hospital	8.5	miles from Humphreys Clinic

Busan St. Mary's Hospital	73	miles from Camp Walker gate 4
Chilgok Kyungpook National	13	miles from Camp Walker gate 4
Daegu Catholic University	3	miles from Camp Walker gate 4
Daegu Fatima Hospital	5.5	miles from Camp Walker gate 4
Gumi CHA Hospital	34	miles from Camp Walker gate 4
Hyosung Hospital	2	miles from Camp Walker gate 4
Keimyung University Dongsan	4.2	miles from Camp Walker gate 4
Pohang St. Mary's Hospital	59	miles from Camp Walker gate 4
Samsung Changwon Hospital	60	miles from Camp Walker gate 4
Women Medi Park Hospital	4	miles from Camp Walker gate 4
Yeungnam University	2.2	miles from Camp Walker gate 4

Aiel Pediatrics	0.4	miles from Zenith Towers
Busan St. Mary's Hospital	7.7	Miles from Zenith Towers
Eillium Hospital	2	miles from Zenith Towers
Mindcare Center Institute	2.5	miles from Zenith Towers
Pusan National University	14	miles from Zenith Towers

**Important notes:** International clinics are not available in all Korean hospitals. Also, not all hospitals have 24/7 English speaking services. If they do, call those numbers only for emergencies or after hours. Please see page 8 for 24/7 language interpretation services.

## AREA I

### DONGDUCHEON JOONGANG ST. MARY'S HOSPITAL

Phone: 031-863-0550 press 0 for English  
Front desk working hours: M – F 0900 – 1800  
Saturday 0900 – 1500  
**24/7 English speaking service: N/A**  
**See page 8 for language interpretation services**
